

Net Zero Review Consultation Questions

Consultation deadline 27 October 2022

<https://beisgovuk.citizenspace.com/nzs/call-for-evidence-on-net-zero-review/consultation/intro/>

It's important to demonstrate support for the Net Zero by responding to this BEIS consultation by the deadline on 27 October 2022. Although some of the questions are pretty biased, others can be used to highlight the obvious things government should be doing to support the transition to net zero for the benefit of all.

For convenience the questions are given in full below.

Once you've completed the initial "About you" questions you can then see all the remaining ones. There's no need to respond to all of the questions

Responses can be saved at any time.

Questions are divided into 5 sections

- Overarching questions
- Questions for Business
- Questions for the Public
- Questions for Local Government, communities and other organisations delivering net zero locally.
- Questions for Academia and innovators

When we've prepared our own response, we'll share it on our website here:

Anne, Carbon Neutral Cambridge 19/10/22

About you

What is your name?

Name

What is your email address?

If you enter your email address then you will automatically receive an acknowledgement email when you submit your response.

Email

What is your organisation?

Organisation

Where are you/your organisation based?

Please expand on your answer here

What sector do you/does your organisation operate in?

Please expand on your answer here

Are you happy for your response to be published?

(Required) Yes Yes, but without identifying information No, I want my response to be treated as confidential

Would you like to be contacted when the consultation response is published?

Yes No

How did you hear about this consultation?

Where did you hear of this consultation?

Other (please specify)

Overarching questions

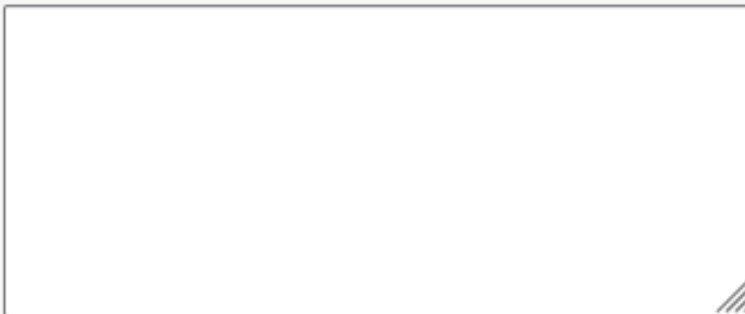

1. How does net zero enable us to meet our economic growth target of 2.5% a year?

Answer here

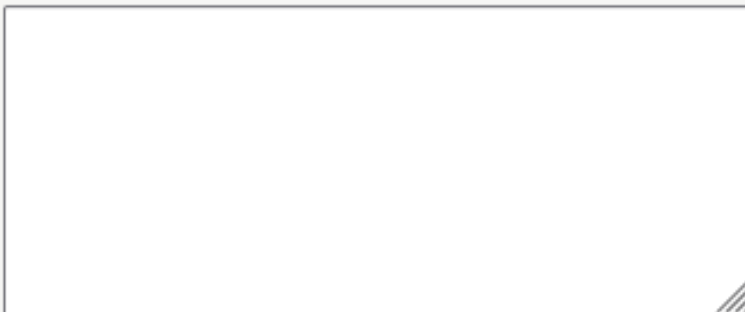

2. What challenges and obstacles have you identified to decarbonisation?

Answer here

3. What opportunities are there for new /amended measures to stimulate or facilitate the transition to net zero in a way that is pro-growth and/or pro-business

Answer here

4. What more could government do to support businesses, consumers and other groups to decarbonise?

Answer here

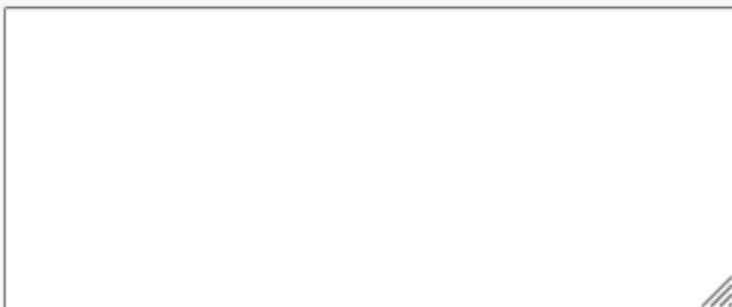

5. Where and in what areas of policy focus could net zero be achieved in a more economically efficient manner?

Answer here

Answer here

4. What more could government do to support businesses, consumers and other groups to decarbonise?

Answer here

A large, empty rectangular text box with a thin black border. In the bottom right corner, there is a small icon consisting of three parallel diagonal lines.

5. Where and in what areas of policy focus could net zero be achieved in a more economically efficient manner?

Answer here

A large, empty rectangular text box with a thin black border. In the bottom right corner, there is a small icon consisting of three parallel diagonal lines.

6. How should we balance our priorities to maintaining energy security with our commitments to delivering net zero by 2050?

Answer here

A large, empty rectangular text box with a thin black border. In the bottom right corner, there is a small icon consisting of three parallel diagonal lines.

7. What export opportunities does the transition to net zero present for the UK economy or UK businesses?

Answer here

A large, empty rectangular text box with a thin black border. In the bottom right corner, there is a small icon consisting of three parallel diagonal lines.

Questions for businesses

8. What growth benefits/opportunities have you had, or do you envisage having, from the net zero transition?

Answer here

9. What barriers do you face in decarbonising your business and its operations?

Answer here

10. Looking at the international market in your sector, what green opportunities seem to be nascent or growing?

Answer here

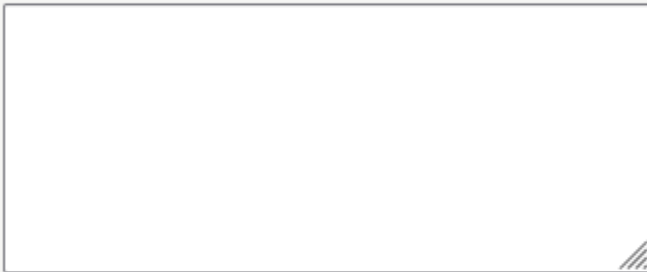

11. What challenges has the net zero transition presented to your business?

Answer here

12. What impacts have changing consumer choices/demand had on your business?

Answer here

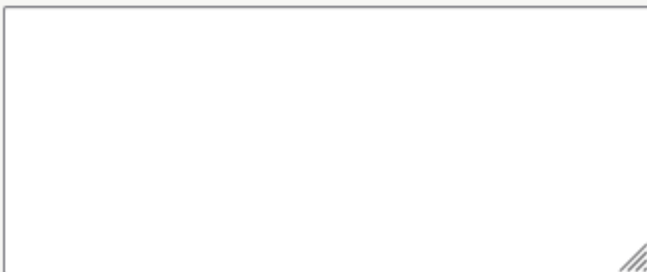

13. What impacts have decarbonisation/net zero measures had on your business?

Answer here

14. What more could be done to support your business and/or sector to decarbonise?

Answer here

15. Do you foresee a role for your business within an expanded UK supply of heat pumps, energy efficiency, electric vehicles, hydrogen or clean power?

Answer here

16. For clean power industry: what barriers to entry have you found in deploying clean energy?

Answer here

17. How many green jobs do you estimate will be created in your sector by 2030?

Answer here

Questions for the public

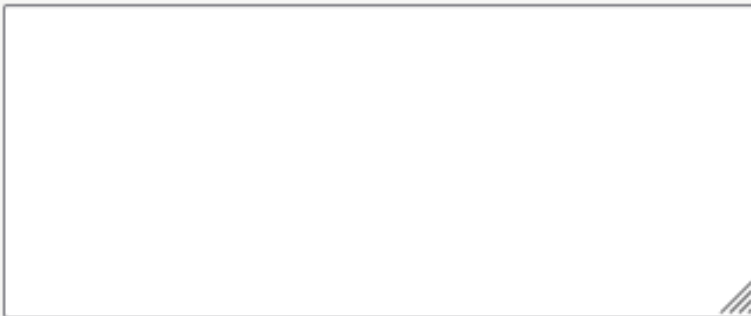

18. Have you or are you planning to take personal action to reduce your carbon emissions (for example through how you travel, what you buy, how you heat your home)? If so, how?

Answer here

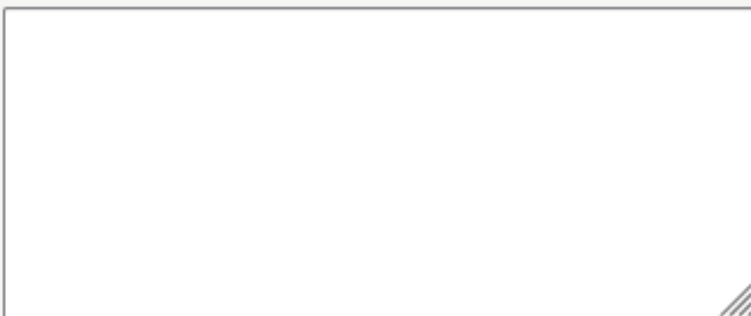

19. Do you face any barriers to doing this? What are they?

Answer here

20. What would help you to make greener choices?

Answer here

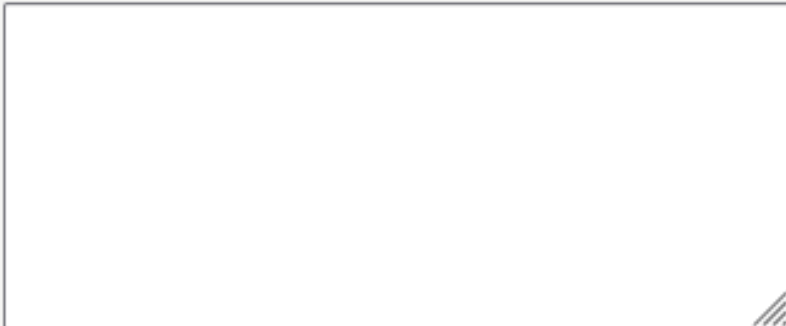

21. What is working well about the measures being put in place to reach net zero?

Answer here

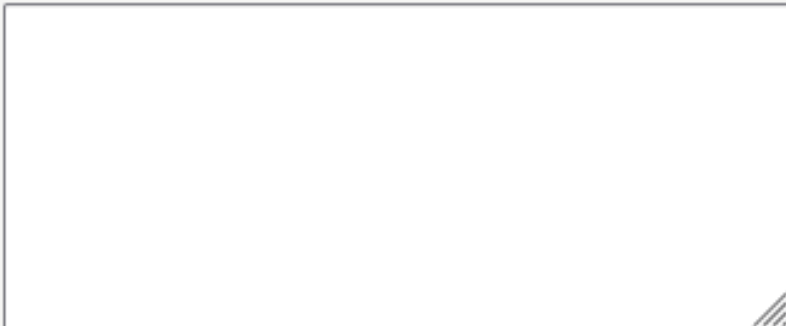

22. What is not working well about the measures being put in place to reach net zero?

Answer here

23. Do you have any further comments on how efforts to tackle climate change are affecting you?

Answer here

Questions for local government, communities and other organisations delivering net zero locally

24. What are the biggest barriers you face in decarbonising / enabling your communities and areas to decarbonise?

Answer here

25. What has worked well? Please share examples of any successful place-based net zero projects.

Answer here

26. How does the planning system affect your efforts to decarbonise?

Answer here

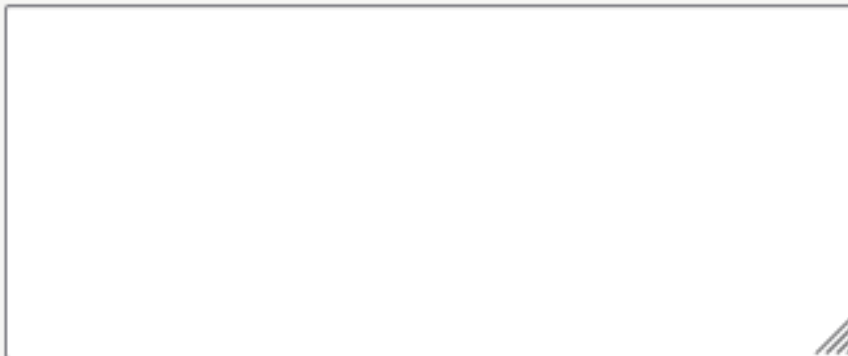

27. How can the design of net zero policies, programmes, and funding schemes be improved to make it easier to deliver in your area?

Answer here

28. Are there any other implications of net zero or specific decarbonisation projects for your area that the Review should consider?

Answer here

Questions for academia and innovators

29. How can we ensure that we seize the benefits from future innovation and technologies?

Answer here

30. Is there a policy idea that will help us reach net zero you think we should consider as part of the review?

Answer here
